DETAILED ACTION

This Office action is responsive to communication filed July 25, 2008. In view of applicant's persuasive arguments, the rejection of claims 1, 4, 5, 7, 9, 10 and 12 under 35 U.S.C. 102(b) as being anticipated by the DE 1475998, the rejection of claim 6 under 35 U.S.C. 103(a) as being unpatentable over DE '998 and the rejection of claims 2 and 3 under 35 U.S.C. 103(a) as being unpatentable over DE '998 as applied to claims 1, 4, 5, 7, 9, 10 and 12 and further in view of Fraser (U.S. Patent No. 2,938,532) are hereby withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1, 8 and 11 have each been amended to recite that the closing body (3) is "located at a fixed position relative to the closing body counterpart (4)." The closing body (3), however, is located at a fixed position relative to the counterpart (4) only at the peripheral edge (10). The lip end (12) of the closing body (3) is clearly not fixed in position as illustrated in Figures 1 and 2.

Art Unit: 3753

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The recitation that the closing body (3) is "located at a fixed position relative to the closing body counterpart (4) is vague and indefinite for the reason discussed in the above paragraph.

Allowable Subject Matter

Claims 1-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
